CONTENTS

Adaptability is a must for survival and growth. The growing need for information in the field of maintenance subjects and concepts has been assuming such a nature that our present day's library system, better say information centres in order to reconstruct, reform and rapid change with the advent of this century, shall have to reconstruct, reform and reorganise its tools, methods, instruments and basic theories, if and only if the ideal of library education is to be actualised.

We are living in a state (called progressive) where most of the librarians having scales of pay of 1988 when AIRUTO has already raised agitation for next revision of scales (UGC) where the librarians are still stateless persons, where still the librarians are ranked with non-teaching staff. All these are allowed to persist and continue, when the personality like one time General Secretary of WBICUTA and leader of AIRUTO is the Hon'ble Minister in-charge of Higher Education.

Quo Vadis? We may be vanquished. The librarians may also be consequently vanquished also. No body will bother. No body will shed tears. But the history of education in this state of West Bengal shall not spare those who are responsible for that and the time will come when everybody will realise that a 'genocide of Librarians' was organised by a gang of 'Dictators' in the domain of higher education in this state.
